

## Potty Schedule

**Feng Shui with Fido™ Philosophy:** The potty schedule is created to help you manage the daily routine of housebreaking your new dog. Doing so over several months allows you to see the time and the pattern of potty breaks needed for your dog's age group. This creates success by taking out the guesswork!

**get:** Your family together to explain how to use and write on this potty schedule. Reprint schedule for additional uses.

**use:** This in your daily routine to help see when your pup goes to the bathroom and how often.

**when:** Take your puppy formally outdoors 5 times a day. This is a 2 to 3 minute process. This outing is different than exercise or an enjoyment walk.

**where:** Choose a spot outside exclusively for potty breaks. When selecting a location, keep in mind this will become your dog's regular spot.

**put:** The leash on every time you initiate outside for potty breaks. This formalizes the process and helps identify that it is time to get busy not play.

**why:** Helps create a daily routine.

**How:** Write the date above the day of the week. Then write # 1, #2, or #3 at the time your dog went potty. You see how many times your pup goes potty on the chart. This will help determine when you take him out.
